

# Assignment

Thank you for your continued interest in a career at Mudano and congratulations on reaching the next round of the process.

*We look for everyone in Mudano to help us move towards our vision while delivering outstanding results for our clients. We'd like to hear your understanding of our proposition, where you believe you would add value at Mudano and for our clients, as well as your vision for the future of large-scale IT change.*

We would like you to prepare a 15-minute presentation on a topic aligned to where you see yourself in Mudano. This should give you an opportunity to demonstrate the value you could add in that role, as well as showing your understanding of our proposition and strategy.

You are welcome to choose a topic specific to your experience or an idea formed from conversations with your previous interviewer. Otherwise you can choose a topic from the list below:

- / How to focus a project around measurable business value
- / How we can use historic project data to define optimal IT architectures
- / How artificial intelligence can be utilised to increase project performance
- / Why artificial intelligence will replace large scale project management, and how
- / Why artificial intelligence won't replace large scale project management, and what will
- / The current gaps in project management software and how Mudano should address them
- / Your most successful project and what you learned from it
- / Your biggest failure and what you learned from it
- / How to drive behavioural change through data and artificial intelligence
- / How to visualise agile project performance to drive effective decision making
- / How we can improve architectural decisions through data analysis and visualisation
- / How modern data solutions can transform financial services
- / How financial services can move from complex legacy estates to benefit from modern technologies and delivery techniques – and how will this add value for customers
- / Approaches for structuring project delivery teams for outstanding performance
- / Using data analytics to improve requirements capture and management
- / Driving cultural change to support optimal project delivery

Q&A

Discussion

## What are we looking for?

*We're looking for people who challenge the status quo and focus on positive change. Teach us something, challenge our thinking, tell us something we don't know. What do you bring to Mudano that expands our diversity of thought and makes our team stronger?*

Do you understand our vision and engage with our proposition?

We're a data company. What data points underpin your arguments?

---

## Delivery principles

*Our delivery principles provide the foundation of everything we do at Mudano so you may find it useful to validate your presentation against them.*

- / Pursue Value
- / Remove Waste
- / Anticipate Issues
- / Empower Teams
- / Use Science

---

## Logistics and preparation

*You're welcome to structure the session in any way you like. You will have 15 minutes to present, but you should expect that your interviewers may have questions and will want to challenge aspects of your presentation.*

The 15-minute presentation will be followed by a discussion on the topic including any questions you have.

There will be a screen and HDMI connection available to use.

**Please send any materials beforehand to [jobs@mudano.com](mailto:jobs@mudano.com)** – and feel free to bring laptops or other materials to the session.

---

Good luck
