

SENIOR DATA CONSULTANT

LONDON (WITH TRAVEL)

MUDANO

WASTE LESS. DO MORE.

Driven by data. Navigated by humans.

Our mission is to harness project data to help people make the best decisions.

About Mudano

Mudano is developing the autonomous project.

We capture data on projects – such as daily tasks, meeting notes, team sentiment, resource information and project progress – and use it to guide better decision-making. Using machine learning we can predict the path of a project, helping teams to foresee issues, improve productivity and deliver efficiently.

We call this Delivery Science™

Be part of changing the industry

Our client-facing teams are focused on delivering projects in a data-driven, value-led manner.

Job description and duties

We are looking for Senior Data Consultants who are ambitious, motivated, innovative, and organised.

- / Implementing Data Management across an enterprise
- / Architecture understanding and strong awareness of latest tooling in the market
- / Large scale delivery programmes
- / Developing data migration strategies and plans
- / Driving customer data quality and transformational mapping
- / Analysing customer requirements and managing customer expectations
- / Working with clients, on site or remotely from our offices, delivering consulting solutions that meet their needs
- / Deliver a compelling customer experience for our valued clients with hands on end to end implementation
- / Influence stakeholders and present clearly

Different works here

If you've spent your career building toolkits to make things more efficient, you'll find kindred spirits at Mudano.

Key skills and experience

- / 5+ years' work experience in full systems development as a Data Consultant within a consultancy/SI or Commercial/Banking
- / Ability to effectively influence and lead multiple levels of an organisation through functional boundaries
- / Solid knowledge of relevant technology concepts
- / Must have a solid working knowledge of data concepts
- / Must be up to date on latest data trends
- / Strong communication skills, including prioritising, problem solving and interpersonal relationship building
- / Proven time management with organisation skills (must be able to prioritise workload and meet deadlines)
- / Lean principles (Six Sigma)

We believe in win-win

You'll have opportunities to challenge yourself and rapidly grow your career.

Benefits and compensation

- / Salary between £60k and 80k based on experience and skills
- / 25 days annual leave (plus bank holidays)
- / Comprehensive benefit package including private medical, wellbeing cover, discounted gym membership, and life insurance
- / Pension scheme with 3% employer contribution
- / Entry into our company stock option scheme
- / Individual training budget and career mentoring
- / 1% club – small benefits that make a big difference (i.e. monthly audible/book allowance, UBER for business)
- / Edgy head-office in start-up incubator (including Thursday beer hours, networking, TED style talks, and unlimited tea/coffee and fruit)
- / State of the art IT equipment including touchscreen laptop and tablet
- / Flexible working
