

R&D DATA SCIENTIST

LONDON OR EDINBURGH

MUDANO

WASTE LESS. DO MORE.

We are determined to transform a wasteful industry

An industry that's stuck in its ways. We only work with people as ambitious and driven as we are. At Mudano there's no time to kick back, stick your feet up and look out of the window. We're on a mission to transform an entire industry. It's a big challenge. But what doesn't challenge you, doesn't change you. People with this drive and fire are our life blood. They aspire to do and be more. That's why our acceptance rate is even tougher than Harvard. We only want the best, and people who believe in values that will realise a vision.

Our people. Our practitioners. Focused on project efficiency and business value delivery. Passionate about removing bias and guesswork and replacing it with informed, objective decision-making.

Build on what you can do. Realise the potential you have.

We are looking for an R&D Data Scientist to join our newly formed Data Solutions team and help develop machine learning services from proof-of-concepts through to scalable production systems.

Job description and duties

- / You will research, develop and deploy scalable machine learning solutions for our clients in financial services
- / You will integrate with our internal product team to develop the machine learning that underpins our project management platform, Sharktower
- / You will be an active contributor to internal communities, keeping up-to-date with the latest advances in machine learning

Key skills and experience

- / Experience building and deploying machine learning services
- / Strong communication skills, including prioritising, problem solving and interpersonal relationship building
- / An ability to write reports and presentations to a variety of audiences
- / Any of these would be a bonus
- / Advanced degree (MSc, PhD) in scientific/engineering field
- / Expert knowledge of Natural Language Processing (NLP)
- / Familiarity with machine learning frameworks (scikit-learn, TensorFlow, PyTorch)

Behaviours that will move frontiers

Imagine with intelligence

We're a data company that is doing things nobody has done before. That takes sharp and agile minds. Minds that can make the leap from the known to the unknown; that questions what's possible. Think from first principles and dare to go somewhere new.

Enjoy uncomfortable

Transforming an entire industry requires desire, energy, perseverance and a restlessness to push the boundaries of what's possible. While challenging the status quo can be scary, the results are worth it.

Be clever and concise

We move fast. To keep momentum, we need to simplify challenges into concise statements and efficient dialogues.

Apply ethics

We work in a transparent manner. If we finish a project ahead of time, we'll call time on our fees that day. In an industry used to wasting millions, it takes many clients by shock.

Be your authentic self

We don't want clones. We want knowledge-age thinking. It doesn't matter if you prefer suits or jeans, if you hold a baby or a briefcase. You'll only be the best version of yourself when you are yourself.

Science eats opinion

Apply a little science; get a different result. A better result. Find the data and run your own experiments. That's the Mudano way.

Farewell to the mundane

Mudano is a collective of unique individuals but with a common set of beliefs, behaviours and values. Culture is how we work together. Easy to experience, harder to pin down and define in words. It is inclusive and it is diverse. Our benefits and policies are designed for each person to integrate their work and life in a way that is right for them, as well as provide extensive support for career development, whatever that path may be.

Want more flexibility? Talk to us and we'll see if together we can build a better business world.

Benefits and compensation

- / Generous personal training budget for your professional development
- / Individual coaching programme
- / Monthly book allowance
- / Comprehensive benefit package including private medical, wellbeing cover, discounted gym membership, and group life insurance
- / 24-hour counselling
- / Good work/life integration
- / Salary £50k to £65k based on experience, skills and location
- / 25 days annual leave
- / Pension scheme with 3% employer contribution
- / Entry into our company stock option scheme
- / Head-office in start-up incubator (including Thursday social hours, networking, TED style talks, and unlimited tea/coffee and fruit)
- / Access to a financial advisor at no cost
