

Architect Assignment

Thank you for your continued interest in a career at Mudano and congratulations on reaching the next round of the process.

We look for everyone in Mudano to help us move towards our vision while delivering outstanding results for our clients. We'd like to hear about a business problem you have solved, are proud of, and are able to explain succinctly.

We would like you to present to us a design where you were actively involved in contribution to its evolution and about which you are passionate.

We will ask you to explain the choices made in the design, the challenges faced and how they were addressed as well as the business problem and value that it enabled.

You are free to structure your presentation in any way you feel is appropriate to engage your interviewers.

Some example topics include:

- / a target operating model design
- / a business process design
- / an IT architecture design
- / A fully redundant real time operational system on open source
- / An enterprise data management solution
- / Solutions for BI, Analytics and / or machine learning at scale.

Q&A

Discussion

What are we looking for?

We're looking for people who challenge the status quo and focus on positive change. Teach us something new or show us a different perspective.

Do you understand our vision and engage with our proposition?

We're a data company. What data points underpin your story?

Delivery principles

Our delivery principles provide the foundation of everything we do at Mudano so you may find it useful to validate your presentation against them.

- / Pursue Value
- / Remove Waste
- / Anticipate Issues
- / Empower Teams
- / Use Science

We encourage candidates to be prepared to explain:

- / The business need behind the design
- / How they gathered requirements
- / The design approach including, business and technical constraints, other limitations and their role in the design process
- / What other option were considered and why were they eliminated?
- / What risks remain in the solution. How are these mitigated?

Logistics and preparation

You're welcome to structure the session in any way you like. You will have 15 minutes to present, but you should expect that your interviewers may have questions and will want to challenge aspects of your presentation.

The 15-minute presentation will be followed by a discussion on the topic including any questions you have.

There will be a screen and HDMI connection available to use and interview rooms are all equipped with white boards and marker pens. Internet connectivity is available and there is an ability to display and markup digital media should you wish to do so to illustrate a point..

Please send any materials 24 hours beforehand to jobs@mudano.com – and feel free to bring laptops or other materials to the session.
