

Data Viz (Tableau / Power BI) Consultant

LONDON

PERMANENT, FULL-TIME

£50-£65K (DOE)

What doesn't challenge you, doesn't change you.

At Mudano, we're on a mission to deliver the promise of people and technology and there's no time to waste.

We only work with people as ambitious and driven as we are, who are excited by the pace of change and are determined to make a mark on the future.

People with this drive and fire are our life blood. They aspire to do and be more.

That's why our acceptance rate is tougher than Harvard.

Our people. Our practitioners. Focused on project efficiency and business value delivery. Passionate about removing bias and guesswork and replacing it with informed, objective decision-making.

Build on what you can do. Realise the potential you have.

We are looking for **data enthusiasts** who are passionate about helping clients leverage their data for better business. You will be in a customer-facing consulting role and have excellent relationship building skills with technical and non-technical stakeholders.

Job description and duties:

- You will be working with our client teams to drive-out analytical requirements through prototyping and visualization
- You will work with client teams to develop reporting and data visualisations in the form of advanced dashboards and workbooks
- You will understand infrastructure requirements and best practices to support deployment
- You will build data visualisations and dashboards from scratch on client environments
- You will be guiding stakeholders and advising on best practices
- You will be designing statistical outputs which are clear and easily conveyed to diverse audiences
- You will support in the information management field within data management or data quality areas
- You will ideate wireframe designs from requirements and understanding of good practice information design

Key skills and experience:

- Minimum 3+ years in data visualisation and BI reporting
- Excellent hands-on experience with Tableau and/or Power BI
- Ability to understand complex data sets, with strong database and SQL skills
- Competency in Python highly regarded (especially pandas, numPy, sklearn, tensorflow)
- Business analysis experience
- Experience of cloud platforms
- Excellent communications skills (verbal and written)
- Industry experience with one of: FS, Insurance, Capital Markets, Wealth and Asset Management

Behaviours that will move frontiers

Imagine with intelligence

We're a data company that is doing things nobody has done before. That takes sharp and agile minds. Minds that can make the leap from the known to the unknown; that questions what's possible. Think from first principles and dare to go somewhere new.

Enjoy uncomfortable

Transforming an entire industry requires desire, energy, perseverance and a restlessness to push the boundaries of what's possible. While challenging the status quo can be scary, the results are worth it.

Be clever and concise

We move fast. To keep momentum, we need to simplify challenges into concise statements and efficient dialogues.

Apply ethics

We work in a transparent manner. If we finish a project ahead of time, we'll call time on our fees that day. In an industry used to wasting millions, it takes many clients by shock.

Be your authentic self

We don't want clones. We want knowledge-age thinking. It doesn't matter if you prefer suits or jeans, if you hold a baby or a briefcase. You'll only be the best version of yourself when you are yourself.

Science eats opinion

Apply a little science; get a different result. A better result. Find the data and run your own experiments. That's the Mudano way.

Accenture Applied Intelligence

The agility of a start-up, the scale of a global leader

Farewell to the Mundane

We exist at the heart of the Accenture Applied Intelligence Financial Services organisation and lead the direction for the strategy, delivery and growth of the capability.

But we retain our start-up mentality and work at speed, with a common set of beliefs, behaviours and values that sets us apart.

Culture is how we work together. Easy to experience, harder to pin down and define in words. It is inclusive and it is diverse. It is award winning. It is a place for each person to live and work in a way that is right for them.

Our benefits and policies are designed for each person to integrate their work and life in a way that is right for them, as well as provide extensive support for career development, whatever that path may be.
